STATEMENT OF MANAGEMENT'S RESPONSIBILITY FOR FINANCIAL STATEMENTS

The management of **ASA Philippines Foundation, Inc.,** is responsible for the preparation and fair presentation of the financial statements for the years ended December 31, 2015 and 2014 in accordance with Philippine Financial Reporting Standards (PFRS), including the Schedule of PFRS and Interpretations Effective as of December 31, 2015.

Management responsibility on the financial statements includes designing and implementing internal controls relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error, selecting and applying appropriate accounting policies, and making accounting estimates that are reasonable in the circumstances.

The Board of Trustees reviews and approves the financial statements, and the additional supplementary information, and submits the same to the members.

Punongbayan & Araullo, the independent auditors appointed by the members, has examined the financial statements of the Company in accordance with Philippine Standards on Auditing and, and in its report to the Board of Trustees and members, has expressed its opinion on the fairness of presentation upon completion of such examination.

Report of Independent Auditors

The Board of Trustees
ASA Philippines Foundation, Inc.
(A Nonstock, Nonprofit Organization)
15th Floor Prestige Tower, F. Ortigas Jr. Street
Ortigas Center, Pasig City

Report on the Financial Statements

We have audited the accompanying financial statements of ASA Philippines Foundation, Inc., which comprise the statements of financial position as at December 31, 2015 and 2014, and the statements of comprehensive income, statements of changes in fund balance and statements of cash flows for the years then ended, and a summary of significant accounting policies and other explanatory information.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Philippine Financial Reporting Standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

MAR 1 6 2016

Auditors' Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with Philippine Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the statements of financial position of ASA Philippines Foundation, Inc. as of December 31, 2015 and 2014, and its financial performance and its cash flows for the years then ended in accordance with Philippine Financial Reporting Standards.

Report on Other Legal and Regulatory Requirements

Our audits were conducted for the purpose of forming an opinion on the basic financial statements taken as a whole. The supplementary information for the year ended December 31, 2015 required by the Bureau of Internal Revenue as disclosed in Note 21 to the financial statements is presented for purposes of additional analysis and is not a required part of the basic financial statements prepared in accordance with Philippine Financial Reporting Standards; it is also not a required disclosure under Securities Regulation Code Rule 68 of the Philippine Securities and Exchange Commission. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.

ASA PHILIPPINES FOUNDATION, INC.
(A Nonstock, Nonprofit Organization)
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2015 AND 2014
(Amounts in Philippine Pesos)

1. CORPORATE INFORMATION

1.1 Foundation Information

ASA Philippines Foundation, Inc. (the Foundation or ASA) was incorporated as a nonstock, nonprofit organization and registered with the Philippine Securities and Exchange Commission on July 9, 2004. As a non-stock, non-profit organization, the Foundation aims to: (a) provide efficient and affordable financial services to the poor for their income-generating activities; (b) build an effective and efficient microfinance institution for sustainable delivery of microfinance services to the entrepreneurial poor; and, (c) facilitate the convergence and provision of other social services for the poor.

The ASA Program provides:

(a) Microfinance services to qualified poor, low-income women engaged in micro and small scale enterprises;

(b) Financial and other forms of assistance to its members in case of sickness, death and calamities and college scholarship for deserving children of members, as part of social services to the poor; and,

(c) Business development services for the members to improve efficiency and effectiveness in enterprise management.

As of December 31, 2015 and 2014, the Foundation has 700 and 600 branches, respectively, operating in various locations within Metro Manila and provincial areas on a nationwide scale.

The Foundation's registered office, which is also its principal place of business, is located at 15th Floor Prestige Tower, F. Ortigas Jr. Street, Ortigas Center, Pasig City.

1.2 Approval of Financial Statements

The financial statements of the Foundation as of and for the year ended December 31, 2015 (including the comparative financial statements as of and for the year ended December 31, 2014) were authorized for issue by the Foundation's Board of Trustees (BOT) on March 2, 2016.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The significant accounting policies that have been used in the preparation of these financial statements are summarized below. The policies have been consistently applied to all years presented, unless otherwise stated.

2.1 Basis of Preparation of Financial Statements

(a) Statement of Compliance with Philippine Financial Reporting Standards

The financial statements of the Foundation have been prepared in accordance with Philippine Financial Reporting Standards (PFRS). PFRS are adopted by the Financial Reporting Standards Council (FRSC) from the pronouncements issued by the International Accounting Standards Board, and approved by the Philippine Board of Accountancy.

The financial statements have been prepared using the measurement bases specified by PFRS for each type of asset, liability, income and expense. The measurement bases are more fully described in the accounting policies that follow.

(b) Presentation of Financial Statements

The financial statements are presented in accordance with Philippine Accounting Standard (PAS) 1, *Presentation of Financial Statements.* The Foundation presents all items of income and expenses in a single statement of comprehensive income.

The Foundation presents a third statement of financial position as at the beginning of the preceding period when it applies an accounting policy retrospectively, or makes a retrospective restatement or reclassification of items that has a material effect on the information in the financial position at the beginning of the preceding period. The related notes to the third statement of financial position are not required to be disclosed.

(c) Functional and Presentation Currency

These financial statements are presented in Philippine pesos, the Foundation's functional and presentation currency, and all values represent absolute amounts except when otherwise indicated.

Items included in the financial statements of the Foundation are measured using its functional currency. Functional currency is the primary economic environment in which the Foundation operates.

2.2 Adoption of New and Amended PFRS

(a) Effective in 2015 that are Relevant to the Foundation

The Foundation adopted for the first time the following amendment and annual improvements to PFRS, which are mandatorily effective for annual periods beginning on or after July 1, 2014, for its annual reporting period beginning January 1, 2015:

PAS 19 (Amendment)	:	Employee Benefits – Defined Benefit Plans – Employee Contributions
Annual Improvements	:	Annual Improvements to PFRS (2010-2012 Cycle) and PFRS (2011-2013 Cycle)

Discussed below are the relevant information about these amendment and improvements.

(i) PAS 19 (Amendment), *Employee Benefits – Defined Benefit Plans – Employee Contributions.* The amendment clarifies that if the amount of the contributions to defined benefit plans from employees or third parties is dependent on the number of years of service, an entity shall attribute the contributions to periods of service using the same attribution method (i.e., either using the plan's contribution formula or on a straight-line basis) for the gross benefit. The amendment did not have a significant impact on the Foundation's financial statements since the Foundation's defined benefit plan does not require employees or third parties to contribute to the benefit plan.

(ii) Annual Improvements to PFRS. Annual improvements to PFRS (2010-2012 Cycle) and PFRS (2011-2013 Cycle) made minor amendments to a number of PFRS. Among those improvements, the following amendments are relevant to the Foundation but had no material impact on the Foundation's financial statements as these amendments merely clarify the existing requirements:

Annual Improvements to PFRS (2010-2012 Cycle)

- PAS 16 (Amendment), *Property, Plant and Equipment.* The amendment clarifies that when an item of property, plant and equipment is revalued, the gross carrying amount is adjusted in a manner that is consistent with a revaluation of the carrying amount of the asset.

- PAS 24 (Amendment), *Related Party Disclosures.* The amendment clarifies that an entity providing key management services to a reporting entity is deemed to be a related party of the latter. It also clarifies that the information required to be disclosed in the financial statements are the amounts incurred by the reporting entity for key management personnel services that are provided by a separate management entity and not the amounts of compensation paid or payable by the management entity to its employees or directors.

Annual Improvement to PFRS (2011-2013 Cycle)

PFRS 13 (Amendment), *Fair Value Measurement*. The amendment clarifies that the scope of the exception for measuring the fair value of a group of financial assets and financial liabilities on a net basis (the portfolio exception) applies to all contracts within the scope of and accounted for in accordance with PAS 39, *Financial Instruments: Recognition and Measurement*, or *PFRS 9, Financial Instruments*, regardless of whether they meet the definition of financial assets or financial liabilities as defined in PAS 32, *Financial Instruments: Presentation.*

(b) Effective in 2015 but are not Relevant to the Foundation

The following annual improvements to PFRS are mandatory for accounting periods beginning on or after July 1, 2014 but are not relevant to the Foundation's financial statements:

PFRS (2010-2012 Cycle)		
PFRS 2 (Amendment)	:	Share-based Payment – Definition of Vesting Condition
PFRS 3 (Amendment)	:	Business Combinations - Accounting for Contingent Consideration in a Business Combination
PFRS 8 (Amendments)	:	Operating Segments – Aggregation of Operating Segments, and Reconciliation of the Total of the Reportable Segments' Assets to the Entity's Assets
PAS 38 (Amendment)	:	Intangible Assets – Revaluation Method – Proportionate Restatement of Accumulated Amortization
PFRS (2011-2013 Cycle)		
PFRS 3 (Amendment)	:	Business Combinations – Scope Exceptions for Joint Ventures
PAS 40 (Amendment)	:	Investment Property – Clarifying the Interrelationship between PFRS 3 and PAS 40

(c) Effective Subsequent to 2015 but not Adopted Early

There are new PFRS, amendments and annual improvements to existing standards effective for annual periods subsequent to 2015 which are adopted by the FRSC. Management will adopt the following relevant pronouncements in accordance with their transitional provisions; and, unless otherwise stated, none of these are expected to have significant impact on the Foundation's financial statements:

(i) PAS 1 (Amendment), *Presentation of Financial Statements – Disclosure Initiative* (effective from January 1, 2016). The amendment encourages entities to apply professional judgment in presenting and disclosing information in the financial statements. Accordingly, it clarifies that the principle of materiality applies to the whole financial statements and an entity shall not reduce the understandability of the financial statements by obscuring material information with immaterial information or by aggregating material items that have different natures or functions. It further clarifies that in determining the order of presenting the notes and disclosures, an entity shall consider the understandability and comparability of the financial statements.

(ii) PAS 16 (Amendment), *Property, Plant and Equipment – Clarification of Acceptable Methods of Depreciation* (effective from January 1, 2016). The amendment clarifies that a depreciation method that is based on revenue that is generated by an activity that includes the use of an asset is not appropriate for property, plant and equipment. It also clarifies that the expected future reductions in the selling price of an item that was produced using the asset could indicate an expectation of technological or commercial obsolescence of an asset, which may reflect a reduction of the future economic benefits embodied in the asset.

(iii) PFRS 9 (2014), *Financial Instruments* (effective from January 1, 2018). This new standard on financial instruments will eventually replace PAS 39 and PFRS 9 (2009, 2010 and 2013 versions). This standard contains, among others, the following:

- three principal classification categories for financial assets based on the business model on how an entity is managing its financial instruments;

- an expected loss model in determining impairment of all financial assets that are not measured at fair value through profit or loss (FVTPL), which generally depends on whether there has been a significant increase in credit risk since initial recognition of a financial asset; and,

- a new model on hedge accounting that provides significant improvements principally by aligning hedge accounting more closely with the risk management activities undertaken by entities when hedging their financial and non-financial risk exposures.

In accordance with the financial asset classification principle of PFRS 9 (2014), a financial asset is classified and measured at amortized cost if the asset is held within a business model whose objective is to hold financial assets in order to collect contractual cash flows that represent solely payments of principal and interest (SPPI) on the principal outstanding. Moreover, a financial asset is classified and subsequently measured at fair value through other comprehensive income if it meets the SPPI criterion and is held in a business model whose objective is achieved by both collecting contractual cash flows and selling the financial assets. All other financial assets are measured at FVTPL.

In addition, PFRS 9 (2014) allows entities to make an irrevocable election to present subsequent changes in the fair value of an equity instrument that is not held for trading in other comprehensive income.

The accounting for embedded derivatives in host contracts that are financial assets is simplified by removing the requirement to consider whether or not they are closely related, and, in most arrangements, do not require separation from the host contract.

For liabilities, the standard retains most of the PAS 39 requirements which include amortized cost accounting for most financial liabilities, with bifurcation of embedded derivatives. The amendment also requires changes in the fair value of an entity's own debt instruments caused by changes in its own credit quality to be recognized in other comprehensive income rather than in profit or loss.

The Foundation does not expect to implement and adopt PFRS 9 (2014) until its effective date. In addition, management is currently assessing the impact of PFRS 9 (2014) on the financial statements of the Foundation and it will conduct a comprehensive study of the potential impact of this standard prior to its mandatory adoption date to assess the impact of all changes.

(iv) Annual Improvements to PFRS (2012-2014 Cycle) (effective from January 1, 2016). Among the improvements, the following amendments are relevant to the Foundation but management does no expect these to have material impact on the Foundation's financial statements:

- PFRS 7 (Amendment), *Financial Instruments – Disclosures*. The amendment provides additional guidance to help entities identify the circumstances under which a contract to "service" financial assets is considered to be a continuing involvement in those assets for the purposes of applying the disclosure requirements of PFRS 7. Such circumstances commonly arise when, for example, the servicing is dependent on the amount or timing of cash flows collected from the transferred asset or when a fixed fee is not paid in full due to non-performance of that asset.

- PAS 19 (Amendment), *Employee Benefits*. The amendment clarifies that the currency and term of the high quality corporate bonds which were used to determine the discount rate for post-employment benefit obligations shall be made consistent with the currency and estimated term of the post-employment benefit obligations.

2.3 Financial Assets

Financial assets are recognized when the Foundation becomes a party to the contractual terms of the financial instruments. For purposes of classifying financial assets, an instrument is considered as an equity instrument if is non-derivative and meets the definition of equity for the issuer in accordance with the criteria of PAS 32. All other non-derivative financial instruments are treated as debt instruments.

Financial assets other than those designated and effective as hedging instruments are classified into the following categories: financial assets at FVTPL, loans and receivables, held-to-maturity investments and available-for-sale financial assets. Financial assets are assigned to the different categories by management on initial recognition, depending on the purpose for which the investments were acquired.

Regular purchases and sales of financial assets are recognized on their trade date. All financial assets that are not classified as at FVTPL are initially recognized at fair value plus any directly attributable transaction costs. Financial assets carried at FVTPL are initially recorded at fair value and the related transaction costs are recognized in profit or loss.

The financial assets category that is currently relevant to the Foundation is loans and receivables.

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They arise when the Foundation provides money, goods or services directly to a debtor with no intention of trading the receivables.

The Foundation's financial assets categorized as loans and receivables are presented as Cash, Loans Receivable, Other Receivables and Rental Deposits in the statement of financial position. Cash includes demand deposits which generally earn interest at daily bank deposit rates and are subject to insignificant changes in value.

Loans and receivables are subsequently measured at amortized cost using the effective interest method, less impairment loss, if any. Impairment loss is provided when there is any objective evidence that the Foundation will not be able to collect all amounts due to it in accordance with the original terms of the receivables. The amount of the impairment loss is determined as the difference between the assets' carrying amount and the present value of estimated future cash flows (excluding future credit losses that have not been incurred), discounted at the financial asset's original effective interest rate or current effective interest rate determined under the contract if the loan has a variable interest rate.

The carrying amount of the asset shall be reduced either directly or through the use of an allowance account.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognized (such as an improvement in the debtor's credit rating), the previously recognized impairment loss is reversed by adjusting the allowance account. The amount of the reversal is recognized in profit or loss.

All income and expenses, including impairment losses, relating to financial assets that are recognized in profit or loss are presented as part of General and Administrative Expenses account under the Operating Expenses section in the statement of comprehensive income.

Non-compounding interest and other cash flows resulting from holding financial assets are recognized in profit or loss when earned, regardless of how the related carrying amount of financial assets is measured. All expenses relating to financial assets are recognized in profit or loss.

The financial assets (or where applicable, a part of a financial asset or part of a group of financial assets) are derecognized when the contractual rights to receive cash flows from the financial instruments expire, or when the financial assets and all substantial risks and rewards of ownership have been transferred to another party. If the Foundation neither transfers nor retains substantially all the risks and rewards of ownership and continues to control the transferred asset, the Foundation recognizes its retained interest in the asset and an associated liability for amounts it may have to pay. If the Foundation retains substantially all the risks and rewards of ownership of a transferred financial asset, the Foundation continues to recognize the financial asset and also recognizes a collateralized borrowing for the proceeds received.

2.4 Other Assets

Other assets pertain to other resources controlled by the Foundation as a result of past events. They are recognized in the financial statements when it is probable that the future economic benefits will flow to the Foundation and the asset has a cost or value that can be measured reliably.

2.5 Property and Equipment

Property and equipment are stated at cost less accumulated depreciation and amortization and any impairment in value.

The cost of an asset comprises its purchase price and directly attributable costs of bringing the asset to working condition for its intended use. Expenditures for additions, major improvements and renewals are capitalized while expenditures for repairs and maintenance are charged to expense as incurred.

Depreciation is computed on the straight-line basis over the estimated useful lives of the assets as follows:

Building	15 years
Office improvements	5 years
Equipment and vehicles	5 years
Furniture and fixtures	3 years

Office improvements are amortized over the estimated useful life of the improvements or the term of the lease, whichever is shorter.

The Foundation's property and equipment are subject to impairment testing whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

Impairment loss for property and equipment is recognized for the amount by which the asset's carrying amount exceeds its recoverable amounts which is the higher of its fair value less costs to sell and its value in use. In determining value in use, management estimates the expected future cash flows from such asset and determines the suitable interest rate in order to calculate the present value of those cash flows. The data used for impairment testing procedures are directly linked to the Foundation's latest approved budget, adjusted as necessary to exclude the effects of asset enhancements. Discount factors determined reflect management's assessment of respective risk profiles, such as market and asset-specific risk factors.

Property and equipment is subsequently reassessed for indications that an impairment loss previously recognized may no longer exist. An impairment loss is reversed if the recoverable amount of the property and equipment exceeds its carrying amount.

The residual values, estimated useful lives, and depreciation and amortization method of property and equipment are reviewed and adjusted if appropriate, at the end of each reporting period.

An item of property and equipment, including the related accumulated depreciation and amortization and any impairment losses, is derecognized upon disposal or when no future economic benefits are expected to arise from the continued use of the asset. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the item) is included in profit or loss in the year the item is derecognized.

2.6 Financial Liabilities

Financial liabilities, which include Capital Build-up (CBU) and Locked in Capital Build-up (LCBU), Loans Payable and Other Liabilities (excluding tax-related liabilities) are recognized when the Foundation becomes a party to the contractual terms of the instrument. These are initially recognized at their fair value and subsequently measured at amortized cost using effective interest method for maturities beyond one year, less settlement payments.

All interest-related charges incurred on financial liabilities are recognized as expense in profit or loss as part of Project Costs account under Operating Expenses in the statement of comprehensive income.

Loans payable are raised for support of long-term funding of operations. This is recognized at proceeds received, net of direct issue costs. Finance charges, including premiums payable on settlement or redemption and direct issue costs, are charged to profit or loss on an accrual basis using the effective interest method and are added to the carrying amount of the instrument to the extent that they are not settled in the period in which they arise.

Financial liabilities are derecognized from the statement of financial position only when the obligations are extinguished either through discharge, cancellation or expiration. The difference between the carrying amount of the financial liability derecognized and the consideration paid or payable is recognized in profit or loss.

2.7 Offsetting Financial Instruments

Financial assets and financial liabilities are offset and the resulting net amount, considered as a single financial asset or financial liability, is reported in the statement of financial position when the Foundation currently has legally enforceable right to set off the recognized amounts and there is an intention to settle on a net basis, or realize the asset and settle the liability simultaneously. The right of set-off must be available at the end of the reporting period, that is, it is not contingent on future event. It must also be enforceable in the normal course of business, in the event of default, and in the event of insolvency or bankruptcy; and must be legally enforceable for both entity and all counterparties to the financial instruments.

2.8 Provisions and Contingencies

Provisions are recognized when present obligations will probably lead to an outflow of economic resources and they can be estimated reliably even if the timing or amount of the outflow may still be uncertain. A present obligation arises from the presence of a legal or constructive obligation that has resulted from past events.

Provisions are measured at the estimated expenditure required to settle the present obligation, based on the most reliable evidence available at the end of the reporting period, including the risks and uncertainties associated with the present obligation. Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. When time value of money is material, long-term provisions are discounted to their present values using a pretax rate that reflects market assessments and the risks specific to the obligation. The increase in the provision due to passage of time is recognized as interest expense. Provisions are reviewed at the end of each reporting period and adjusted to reflect the current best estimate.

In those cases where the possible outflow of economic resource as a result of present obligations is considered improbable or remote, or the amount to be provided for cannot be measured reliably, no liability is recognized in the financial statements. Similarly, possible inflows of economic benefits to the Foundation that do not yet meet the recognition criteria of an asset are considered contingent assets, hence, are not recognized in the financial statements. On the other hand, any reimbursement that the Foundation can be virtually certain to collect from a third party with respect to the obligation is recognized as a separate asset not exceeding the amount of the related provision.

2.9 Revenue and Expense Recognition

Revenue comprises revenue earned related to rendering of services (i.e., extending loans) measured by reference to the fair value of consideration received or receivable by the Foundation for services provided, excluding any rebates.

Revenue is recognized to the extent that revenue can be reliably measured; it is probable that the economic benefits will flow to the Foundation; and, the cost incurred or to be incurred can be reliably measured. In addition, the following specific recognition criteria must also be met before revenue is recognized:

(a) *Service fees* – Revenue is recognized when the lending services are provided which is generally during the month when the loan is disbursed to members.

(b) *Interest* – Revenue is recognized as interest accrues taking into account the effective yield of the asset.

Costs and expenses are recognized in profit or loss upon utilization of the goods and/or services or at the date they are incurred. Any finance costs are reported in profit or loss on an accrual basis, except any borrowing costs that is related to a qualifying asset that is capitalized as part of the cost of the asset (see Note 2.12).

2.10 Leases – Foundation as Lessee

Lease, which does not transfer to the Foundation substantially all the risks and benefits of ownership of the asset, is classified as operating leas. Operating lease payments (net of any incentive received from the lessor) are recognized as expense in profit or loss on a straight-line basis over the lease term. Associated costs, such as repairs and maintenance and insurance, are expensed as incurred.

The Foundation determines whether an arrangement is, or contains, a lease based on the substance of the arrangement. It makes an assessment of whether the fulfillment of the arrangement is dependent on the use of a specific asset or assets and the arrangement conveys a right to use the asset.

2.11 Employee Benefits

The Foundation provides post-employment benefits to employees through a defined benefit plan, defined contribution plans, and other employee benefits which are recognized as follows:

(a) *Post-employment Defined Benefit Plan*

A defined benefit plan is a post-employment plan that defines an amount of post-employment benefit that an employee will receive on retirement, usually dependent on one or more factors such as age, years of service and salary. The legal obligation for any benefits from this kind of post-employment plan remains with the Foundation, even if plan assets for funding the defined benefit plan have been acquired. Plan assets may include assets specifically designated to a long-term benefit fund, as well as qualifying insurance policies. The Foundation's defined benefit pension plan covers all regular full-time employees.

The liability recognized in the statement of financial position for a defined benefit plan solely pertains to the present value of the defined benefit obligation at the end of the reporting period. The defined benefit obligation is calculated annually by an independent actuary using the projected unit credit method. The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows for expected benefit payments using a discount rate derived from the interest rates of a zero coupon government bonds as published by the Philippine Dealing and Exchange Corporation, that are denominated in the currency in which the benefits will be paid and that have terms to maturity approximating to the terms of the related post-employment liability.

Remeasurements, comprising of actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are reflected immediately in the statement of financial position with a charge or credit recognized in other comprehensive income in the period in which they arise. Interest expense is calculated by applying the discount rate at the beginning of the period, taking account of any changes in the net defined benefit liability during the period as a result of benefit payments. Interest expense is reported as part of Project Costs account under Operating Expenses in the statement of comprehensive income.

Past-service costs are recognized immediately in profit or loss in the period of a plan amendment or curtailment.

(b) Post-employment Defined Contribution Plans

A defined contribution plan is a post-employment plan under which the Foundation pays fixed contributions into an independent entity [such as the Social Security System (SSS)]. The Foundation has no legal or constructive obligations to pay further contributions after payment of the fixed contribution. The contributions recognized in respect of defined contribution plans are expensed as they fall due. Liabilities or assets may be recognized if underpayment or prepayment has occurred and are included in current liabilities or current assets as they are normally of a short-term nature.

(c) Termination Benefits

Termination benefits are payable when employment is terminated by the Foundation before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Foundation recognizes termination benefits at the earlier of when it can no longer withdraw the offer of such benefits and when it recognizes costs for a restructuring that is within the scope of PAS 37, *Provisions, Contingent Liabilities and Contingent Assets*, and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of each reporting period are discounted to their present value.

(d) Compensated Absences

Compensated absences are recognized for the number of paid leave days (including holiday entitlement) remaining at the end of the reporting period. They are included in Other Liabilities account in the statement of financial position at the undiscounted amount that the Foundation expects to pay as a result of the unused entitlement.

2.12 Borrowing Costs

Borrowing costs are recognized as expenses in the period in which they are incurred, except to the extent that they are capitalized. Borrowing costs that are directly attributable to the acquisition, construction or production of a qualifying asset (i.e., an asset that takes a substantial period of time to get ready for its intended use or sale) are capitalized as part of cost of such asset. The capitalization of borrowing costs commences when expenditures for the asset and borrowing costs are being incurred and activities that are necessary to prepare the asset for its intended use or sale are in progress. Capitalization ceases when substantially all such activities are complete.

Investment income earned on the temporary investment of specific borrowings pending their expenditure on qualifying assets is deducted from the borrowing costs eligible for capitalization.

2.13 Fund Balance

Grants and contributions represent the initial contribution received by the Foundation at the start of its operations.

Cumulative results of operations represent all current and prior period results of operations as reported in the profit or loss section of the statement of comprehensive income.

Remeasurement of post-employment defined benefit plan pertains to the cumulative balance of actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions used in the determination of the post-employment defined benefit obligation.

2.14 Related Party Transactions and Relationships

Related party transactions are transfers of resources, services or obligations between the Foundation and its related parties, regardless whether a price is charged.

Parties are considered to be related if one party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions. These parties include: (a) individuals owning, directly or indirectly through one or more intermediaries, control or are controlled by, or under common control with the Foundation; (b) associates; and, (c) individuals owning, directly or indirectly, an interest in the voting power of the Foundation that gives them significant influence over the Foundation and close members of the family of any such individual.

In considering each possible related party relationship, attention is directed to the substance of the relationship and not merely on the legal form.

2.15 Events after the End of the Reporting Period

Any post-year-end event that provides additional information about the Foundation's statement of financial position at the end of the reporting period (adjusting event) is reflected in the financial statements. Post-year-end events that are not adjusting events, if any, are disclosed when material to the financial statements.

3. SIGNIFICANT ACCOUNTING JUDGMENTS AND ESTIMATES

The preparation of the Foundation's financial statements in accordance with PFRS requires management to make judgments and estimates that affect the amounts reported in the financial statements and related notes. Judgments and estimates are continually evaluated and are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Actual results may ultimately differ from these estimates.

3.1 Critical Management Judgments in Applying Accounting Policies

In the process of applying the Foundation's accounting policies, management has made the following judgments, apart from those involving estimation, which have the most significant effect on the amounts recognized in the financial estimates:

(a) Distinguishing Operating and Finance Leases

The Foundation has entered into various lease agreements as a lessee. Critical judgment was exercised by management to distinguish each lease agreement as either an operating or finance lease by looking at the transfer or retention of significant risk and rewards of ownership of the properties covered by the agreements. Failure to make the right judgment will result in either overstatement or understatement of assets and liabilities.

Management has assessed that its existing lease agreements qualify as operating leases.

(b) Recognition of Provisions and Contingencies

Judgment is exercised by management to distinguish between provisions and contingencies. Policies on recognition of provisions and contingencies are discussed in Note 2.8 and relevant disclosures are presented in Note 19.

3.2 Key Sources of Estimation Uncertainty

The following are the key assumptions concerning the future, and other key sources of estimation uncertainty at the end of the reporting period, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next reporting period:

(a) Impairment of Loans and Other Receivables

Adequate amount of allowance for impairment is provided for specific and groups of accounts, where objective evidence of impairment exists. The Foundation evaluates the amount of allowance for impairment based on available facts and circumstances affecting the collectability of the accounts, including, but not limited to, the length of the Foundation's relationship with the members, the members' current credit status, average age of accounts, collection experience and historical loss experience. The methodology and assumptions used in estimating future cash flows are reviewed regularly by the Foundation to reduce any differences between loss estimates and actual loss experience.

The carrying value of loans and other receivables and the analysis of allowance *(b) Estimation of Useful Lives of Property and Equipment*

The Foundation estimates the useful lives of property and equipment based on the period over which the assets are expected to be available for use. The estimated useful lives of property and equipment are reviewed periodically and are updated if expectations differ from previous estimates due to physical wear and tear, technical or commercial obsolescence and legal or other limits on the use of the assets.

The carrying amounts of property and equipment are analyzed in Note 8. Based on management's assessment as of December 31, 2015 and 2014, there is no change in estimated useful lives of property and equipment during those years. Actual results, however, may vary due to changes in estimates brought about by changes in factors mentioned above.

(c) Impairment of Property and Equipment

The Foundation's policy on estimating the impairment of property and equipment is discussed in detail in Note 2.5. Though management believes that the assumptions used in the estimation of the carrying amount of the assets are appropriate and reasonable, significant changes in these assumptions may materially affect the assessment of recoverable amount and any resulting impairment loss could have a material adverse effect on the results of operations.

Management has assessed that there are no indications of impairment on the Foundation's property and equipment at the end of each reporting period; hence, no impairment losses are required to be recognized on those assets in both years.

(d) Valuation of Post-employment Defined Benefit

The determination of the Foundation's obligation and cost of post-employment defined benefit is dependent on the selection of certain assumptions used by an independent actuary in calculating such amounts. Those assumptions include, among others, discount rates, salary rate increase, and employee turnover rate. A significant change in any of these actuarial assumptions may generally affect the recognized expense, other comprehensive income or losses and the carrying amount of the post-employment benefit obligation in the next reporting period.

The amounts of post-employment benefit obligation and expense and an analysis of the movements in the estimated present value of post-employment benefit obligation as well as the analysis of the sensitivity of such obligation to the changes in significant assumptions are presented in Note 16.2.

4. RISK MANAGEMENT OBJECTIVES AND POLICIES

The Foundation is exposed to a variety of financial risks which result from its operating and financing activities. The Foundation's risk management is coordinated with its BOT, and focuses on actively securing the Foundation's short-to-medium term cash flows by minimizing the exposure to financial markets.

The Foundation does not engage in the trading of financial assets for speculative purposes nor does it write options.

The most significant financial risks to which the Foundation is exposed to are described below.

4.1 Credit Risk

Credit risk is the risk that a counterparty may fail to discharge an obligation to the Foundation. The Foundation is exposed to this risk for financial instruments arising from granting loans and advances to its members and employees, and placing deposits to various local banks.

The Foundation continuously monitors default of its members and other counterparties, identified individually or by group, and incorporate the information into its credit risk controls. The Foundation's policy is to deal only with creditworthy counterparties. In addition, loans and other receivables are secured by CBU and LCBU of members which can be applied against any amounts due in cases of default on loan payments.

The maximum credit exposure of financial assets is the carrying amount of the financial assets as shown in the statements of financial position or in the detailed analysis provided in the notes to the financial statements, as summarized below.

	Notes	**2015**	2014
Cash	6	**P 262,119,595**	P 484,032,509
Loans receivable - net	7	**5,217,722,789**	3,299,500,700
Other receivables	7	**92,127,192**	84,310,903
Rental deposits	19	**15,408,230**	11,980,049
		P 5,587,377,806	P3,879,824,161

The credit risk for cash is considered negligible, since the counterparties are reputable banks with high quality external credit ratings. Included in cash are cash in banks which are insured by the Philippine Deposit Insurance Corporation up to a maximum coverage of P0.5 million for every depositor per banking institution.

Total past due loans amounting to P3.3 million for 699 members and P1.2 million for 258 members as of December 31, 2015 and 2014, respectively, have been fully provided with adequate amount of allowance for impairment.

In respect of loans receivable and other receivables, the Foundation is not exposed to any significant credit risk exposure to any single counterparty. Significant portion of the Foundation's loans receivable pertains to claims from various groups of members with similar characteristics. However, the Foundation has no experience of significant members' default and historical losses from any single group of counterparties.

4.2 Liquidity Risk

The Foundation manages its liquidity needs by carefully monitoring scheduled debt servicing payments for long-term financial liabilities as well as cash outflows due in a day-to-day business. Liquidity needs are monitored in various time bands, on a day-to-day and week-to-week basis, as well as on the basis of a rolling 30-day projection. Long-term liquidity needs for a six-month and one-year period are identified monthly.

The Foundation maintains cash to meet its liquidity requirements for up to 60-day periods. Funding for long-term liquidity needs is additionally secured by an adequate amount of committed credit facilities and the ability to consistently maintain an effective collection turn-over.

As at December 31, 2015, the Foundation's financial liabilities have contractual maturities which are presented below.

	Notes	Within 6 months	Within 12 months	After one year but within five years	Total
CBU and LCBU	9	P 3,115,605,750	P -	P -	P 3,115,605,750
Loans payable	10	150,575,000	372,636,250	65,114,375	588,325,625
Other liabilities	11	860,316,890	-	-	860,316,890
		P 4,126,497,640	P 372,636,250	P 65,114,375	P 4,564,248,265

This compares to the maturity of the Foundation's financial liabilities in the previous reporting period as follows:

	Notes	Within 6 months	Within 12 months	After one year but within five years	Total
CBU and LCBU	9	P 2,158,054,220	P -	P -	P 2,158,054,220
Loans payable	10	225,529,181	71,429,375	77,288,125	374,246,681
Other liabilities	11	678,814,825	-	-	678,814,825
		P 3,062,398,226	P 71,429,375	P 77,288,125	P 3,211,115,726

The above contractual maturities reflect the gross cash flows, which may differ from the carrying values of the liabilities at the end of the reporting periods.

5. CATEGORIES AND OFFSETTING OF FINANCIAL ASSETS AND FINANCIAL LIABILITIES

5.1 Carrying Amounts and Fair Values by Category

The carrying amounts and fair values of the categories of financial assets and financial liabilities presented in the statements of financial position are shown below (amounts in thousands).

		2015		2014	
	Notes	Carrying Values	Fair Values	Carrying Values	Fair Values
Financial Assets					
Loans and receivables:					
Cash	6	P 262,120	P 262,120	P 484,033	P 484,033
Loans receivable - net	7	5,217,723	5,217,723	3,299,501	3,299,501
Other receivables	7	92,127	92,127	84,311	84,311
Rental deposits	19	15,408	15,408	11,980	11,980
		P 5,587,378	P 5,587,378	P 3,879,825	P 3,879,825
Financial Liabilities					
At amortized cost					
CBU and LCBU	9	P 3,115,606	P 3,115,606	P 2,158,054	P 2,158,054
Loans payable	10	579,000	579,000	364,600	364,600
Other liabilities	11	860,317	860,317	678,815	678,815
		P 4,554,923	P 4,554,923	P 3,201,469	P 3,201,469

Management considers that the carrying amount of the Foundation's financial assets and financial liabilities measured at amortized cost approximates the fair values.

5.2 Offsetting of Financial Assets and Financial Liabilities

The following financial assets with gross amounts presented in the statements of financial position are subject to offsetting, enforceable master netting arrangements and similar agreements (amounts in thousands):

	Notes	Gross amounts recognized in the statement of financial position	Related amounts not set off in the statement of financial position: Financial instruments	Related amounts not set off in the statement of financial position: Collateral received	Net amount
December 31, 2015					
Loans receivables - net	7,9,10	P 5,217,723	(P 3,545,606)	P -	P 1,672,117
Other receivables	7,11	92,127	(63,125)	-	29,002
Total		P 5,309,850	(P 3,608,731)	P -	P 1,701,119
December 31, 2014					
Loans receivables - net	7,9,10	P 3,299,501	(P 2,381,054)	P -	P 918,447
Other receivables	7,11	84,311	(46,873)	-	37,438
Total		P 3,383,812	(P 2,427,927)	P -	P 955,885

The following financial liabilities with gross amounts presented in the statements of financial position are subject to offsetting, enforceable master netting arrangements and similar agreements (amounts in thousands):

	Note	Gross amounts recognized in the statement of financial position	Related amounts not set off in the statement of financial position: Financial instruments	Related amounts not set off in the statement of financial position: Collateral received	Net amount
December 31, 2015					
Loans payable	10	P 579,000	(P 430,000)	P -	P 149,000
December 31, 2014					
Loans payable	10	P 364,600	(P 223,000)	P -	P 141,600

For the financial assets and financial liabilities (i.e., loans and other receivables and the related loans payable, CBU and LCBU balance and Staff CBU) subject to enforceable master netting arrangements or similar arrangements above, each agreement between the Foundation and counterparties allows for net settlement of the relevant financial assets and financial liabilities when both elect to settle on a net basis. In the absence of such an election, financial assets and financial liabilities will be settled on a gross basis, however, each party to the master netting agreement or similar agreement will have the option to settle all such amounts on a net basis in the event of default of the other party.

6. CASH

The Foundation's cash in bank balance as of December 31, 2015 and 2014 amounted to P262.1 million and P484.0 million, respectively. Cash in banks generally earn interest at rates based on daily bank deposit rates.

Interest earned from cash in banks amounted to P2.9 million and P2.4 million in 2015 and 2014, respectively, and is presented as part of Other Revenues in the statements of comprehensive income (see Note 12).

None of the Foundation's savings deposits were held as security for any of the Foundation's liabilities at the end of the reporting period.

7. LOANS AND OTHER RECEIVABLES

These accounts include the following:

7.1 Loans Receivable

Loans receivable as at December 31 consist of:

	2015	2014
Loans receivable	P 6,469,821,900	P4,111,561,550
Unearned service charges	(843,889,801)	(536,290,610)
	5,625,932,099	3,575,270,940
Allowance for impairment	(408,209,310)	(275,770,240)
	P 5,217,722,789	P3,299,500,700

Loans receivable represent microfinance loans granted to the Foundation's members. These loans have terms of six months and are partially secured by the carrying amounts of CBU and LCBU of the members (see Note 9). These loans are subject to 15% service charges all throughout the six-month term. Service fees earned from these loans amounted to P2,284.6 million and P1,550.0 million in 2015 and 2014, respectively, and are shown as Service Fees in the statements of comprehensive income.

As of December 31, 2015 and 2014, the Foundation has 1,073,580 and 849,232 active members, respectively.

The Foundation's loans receivable have been reviewed for indications of impairment. Certain receivables were found to be impaired; hence, adequate amount of allowance for impairment has been recognized accordingly.

A reconciliation of the allowance for impairment at the beginning and end of 2015 and 2014 is shown below.

	Note	2015	2014
Balance at beginning of year		P 275,770,240	P 247,683,490
Impairment loss during the year	13	150,133,980	38,000,000
Write-off of receivables previously provided with allowance		(17,694,910)	(9,913,250)
Balance at end of year		P 408,209,310	P 275,770,240

Loans receivable written-off in 2015 and 2014 pertain to the outstanding balance of loans granted to 5,521 and 3,830 members, respectively.

Certain loans receivable of the Foundation amounting to P750.6 million and P626.3 million as of December 31, 2015 and 2014, respectively, are held as security to the Foundation's borrowings from local banks (see Note 10).

7.2 Other Receivables

Other receivables consist of personal and mobility loans, and non-interest bearing advances granted to the Foundation's personnel with total carrying amount of P92.1 million and P84.3 million as of December 31, 2015 and 2014, respectively. Personal and mobility loans granted to employees are charged with service fee of 10% for six-month term in 2015 and 2014 recognized as service charges on employee loans under Other Revenues account in the statements of comprehensive income (see Note 12).

The Foundation's other receivables have been reviewed for indications of impairment. No other receivables were found to be impaired as of December 31, 2015 and 2014 based on the assessment of management.

8. PROPERTY AND EQUIPMENT

The gross carrying amounts and accumulated depreciation and amortization of property and equipment at the beginning and end of 2015 and 2014 are shown below.

	Building and Office Improvements	Furniture and Fixtures	Equipment and Vehicles	Total
December 31, 2015				
Cost	P 65,678,584	P 124,327,964	P 11,504,553	P 201,511,101
Accumulated depreciation and amortization	(6,729,784)	(79,184,576)	(7,124,841)	(93,039,201)
Net carrying amount	**P 58,948,800**	**P 45,143,388**	**P 4,379,712**	**P 108,471,900**
December 31, 2014				
Cost	P 65,678,584	P 87,299,609	P 10,725,701	P 163,703,894
Accumulated depreciation and amortization	(2,351,184)	(58,514,569)	(5,600,741)	(66,466,494)
Net carrying amount	P 63,327,400	P 28,785,040	P 5,124,960	P 97,237,400
January 1, 2014				
Cost	P 18,401,107	P 66,045,115	P 7,632,146	P 92,078,368
Accumulated depreciation and amortization	(9,443,552)	(40,818,398)	(4,639,818)	(54,901,768)
Net carrying amount	P 8,957,555	P 25,226,717	P 2,992,328	P 37,176,600

A reconciliation of the carrying amounts of property and equipment at the beginning and end of 2015 and 2014 is shown below.

	Building and Office Improvements	Furniture and Fixtures	Equipment and Vehicles	Total
Balance at January 1, 2015, net of accumulated depreciation and amortization	P 63,327,400	P 28,785,040	P 5,124,960	P 97,237,400
Additions	-	37,028,355	778,852	37,807,207
Depreciation and amortization charges for the year	(4,378,600)	(20,670,007)	(1,524,100)	(26,572,707)
Balance at December 31, 2015, net of accumulated depreciation and amortization	P 58,948,800	P 45,143,388	P 4,379,712	P 108,471,900
Balance at January 1, 2014, net of accumulated depreciation and amortization	P 8,957,555	P 25,226,717	P 2,992,328	P 37,176,600
Addition	60,178,584	21,254,494	3,093,555	84,526,633
Disposals	(4,864,400)	-	-	(4,864,400)
Depreciation and amortization charges for the year	(944,339)	(17,696,171)	(960,923)	(19,601,433)
Balance at December 31, 2014, net of accumulated depreciation and amortization	P 63,327,400	P 28,785,040	P 5,124,960	P 97,237,400

In December 2014, the Foundation acquired a new business office where its head office operations are conducted. Such newly owned property was purchased for P60.2 million and was fully paid in cash as of December 31, 2014. In connection with this, in September 2014, by way of a Deed of Absolute Sale and a Memorandum of Agreement entered into with a third party, the Foundation has disposed of the offices that it previously occupied as its place of business for a total consideration of P8.5 million resulting in the recognition of P3.6 million gain on sale which is shown as part of Other Revenues in the 2014 statement of comprehensive income (see Note 12). As part of the settlement term of the selling price, the Foundation has received a P4.3 million cash downpayment while the remaining consideration amounting to P4.2 million is made on credit through a letter of guaranty executed by a local bank in favor of the Foundation which is presented as part of Other Receivables in the 2014 statement of financial position (see Note 7.2). Such remaining balance was already collected in full by the Foundation in April 2015.

The amount of depreciation and amortization is allocated and reported in the statements of comprehensive income as follows:

	Notes	2015	2014
Project costs	14	P **17,517,621**	P 15,569,237
General and administrative	15	**9,055,086**	4,032,196
	13	P **26,572,707**	P 19,601,433

9. CAPITAL BUILD-UP AND LOCKED IN CAPITAL BUILD-UP

This account is broken down as follows:

	Note	2015	2014
CBU	7	**P 2,593,273,030**	P1,787,174,290
LCBU		**522,332,720**	370,879,930
		P 3,115,605,750	P2,158,054,220

CBU pertains to weekly savings of P50 or more that each client must maintain during the first loan cycle, which earns rebates of up to 7% per annum. On the succeeding loan cycles, the clients have to maintain a balance equivalent to 15% of the availed principal loan. Rebates are computed and released to clients on the first week of December every year.

LCBU is an alternative savings that is locked in as to client withdrawal. The weekly contribution is fixed at P10. When the LCBU reaches P2,400, 50% of such is transferred to CBU. LCBU do not earn interest.

The collected CBU and LCBU or micro-savings is for purposes of maintaining a compensating balance, which is used to offset against the clients' outstanding balance in case of default.

As of December 31, 2015 and 2014, the Foundation had 1,073,580 and 849,232 members, respectively, who have CBU and LCBU contributions.

10. LOANS PAYABLE

The composition of the Foundation's outstanding bank loans is shown below.

	2015	2014
Current	**P 514,000,000**	P 289,600,000
Noncurrent	**65,000,000**	75,000,000
	P 579,000,000	P 364,600,000

To provide microfinance loans to members in accordance with the Foundation's microfinance program, the Foundation as part of its cash management obtains financing through bank loans from various financial institutions and/or organization.

The summarized terms and conditions of each availed loan as at December 31, 2015 and 2014 are as follows:

Outstanding Principal Balance 2015	Outstanding Principal Balance 2014	Interest Rate	Security	Maturity date
P 150,000,000	P 100,000,000	Fixed at 4.5%	Secured, assigned receivables P197.8 million and P137.1 million, respectively	2016
150,000,000	30,000,000	Fixed at 4.5%	Secured, assigned receivables P249.6 million and P83.9 million, respectively	2016
130,000,000	80,000,000	Fixed at 4.75%	Secured, assigned receivables P303.1 million and P224.5 million, respectively	2016
125,000,000	125,000,000	Fixed at 4.5%	Unsecured	2017
24,000,000	16,600,000	None	Unsecured	2016
-	13,000,000	Fixed at 6.0%	Secured, assigned receivables P180.8 million	2015
P 579,000,000	P 364,600,000			

Interest expense on interest-bearing loans amounted to P16.1 million and P13.3 million in 2015 and 2014, respectively, and is presented part of Finance Costs under Project Costs in the statements of comprehensive income (see Note 14).

The movement of the foregoing loans is presented below.

	2015	2014
Beginning balance	P 364,600,000	P 298,500,000
Additions	518,100,000	271,600,000
Repayments	(303,700,000)	(205,500,000)
	P 579,000,000	P 364,600,000

As of December 31, 2015 and 2014, the Foundation is compliant with all the security requirements and covenants imposed by the respective creditor.

11. OTHER LIABILITIES

This account includes the following:

	2015	2014
Beneficiary program and support trust fund (BPSTF)	P 448,430,620	P 326,057,410
Accrued expenses	141,844,340	153,359,514
Staff cash bond	122,680,600	90,558,900
Staff benevolent fund	95,263,400	84,257,300
Staff CBU	63,124,700	46,872,650
Accounts payable	22,515,363	17,446,402
	P 893,859,023	P 718,552,176

BPSTF represents 0.5% of the principal amount of loan released to each member. This is used to cover the payment of a loan in case of death of a member, provide assistance to members in cases of fire, and cover losses in case of robbery and hold-up of collection from members.

Effective on January 1, 2012, a new policy was implemented by the Foundation requiring each new group member to contribute P50 as group members' contribution. The contributions form part of the BPSTF as additional fund for health-care program, death benefit, hospitalization benefit, scholarship to the children of the members, and provision for distribution of relief goods and other livelihood support intervention in time of calamities such as typhoons, fires, earthquakes and floods.

Accrued expenses include accruals for various expenses for the operations of the Foundation such as taxes and licenses, light and reimbursable expenses, travel, and repairs and maintenance.

Staff cash bond represents refundable security deposits made by employees.

Staff benevolent fund includes amounts set aside for employee hospitalization, employee death aid, and employee welfare and benefits.

Staff CBU are mandatory but withdrawable contributions made by the Foundation's employees that earn interest at 7% per annum. This also serves as the Foundation's credit protection strategy for any uncollectible advances provided to its personnel in cases of default on payment.

Accounts payable include withholding taxes payable and unclaimed benefits of resigned personnel during the year.

12. OTHER REVENUES

This account includes the following:

	Notes	2015	2014
Service charges on employee loans	7.2	**P 2,889,008**	P 7,693,722
Interest income on bank deposits	6	**2,897,588**	2,447,873
Gain from recovery of written-off accounts		**485,991**	608,440
Gain on sale of property and equipment	8	**-**	3,635,600
		P 6,272,587	P 14,385,635

Service charges on employee loans pertain to 10% service fees earned from personal and motorcycle advances granted by the Foundation to its personnel (see Note 7.2).

13. OPERATING EXPENSES BY NATURE

The details of operating expenses by nature are shown below.

	Notes	2015	2014
Employee benefits	16.1	**P 944,041,181**	P 756,368,490
Travel and transportation		**281,975,471**	259,453,379
Taxes and licenses	21.1*(f)*	**265,467,153**	111,248,765
Impairment loss	7.1	**150,133,980**	38,000,000
Office rental	19	**78,235,370**	67,691,820
Repairs and maintenance		**54,369,834**	69,218,818
Staff development and conference		**42,198,057**	35,580,393
Office supplies and reproduction		**35,714,338**	27,733,990
Depreciation and amortization	8	**26,572,707**	19,601,433
Finance costs	10, 16.2	**21,534,855**	17,766,174
Postage and telephone		**16,404,621**	9,983,146
Light and water		**16,332,257**	13,399,031
Grants and donations		**14,028,625**	12,640,401
Professional fees		**3,946,739**	7,248,149
Miscellaneous		**16,617,548**	11,938,025
		P 1,967,572,736	P 1,457,872,014

These expenses are classified and reported in the statements of comprehensive income as follows:

	Notes	2015	2014
Project costs	14	**P1,528,240,749**	P 1,153,125,521
General and administrative expenses	15	**439,331,987**	304,746,493
		P1,967,572,736	P 1,457,872,014

14. PROJECT COSTS

This account includes the following:

	Notes	2015	2014
Employee benefits	16.1	**P 828,311,479**	P 650,314,554
Travel and transportation		**261,018,826**	227,009,884
Impairment loss	7.1	**150,133,980**	38,000,000
Office rental	19	**77,533,370**	61,152,852
Repairs and maintenance		**52,518,982**	52,796,216
Staff development and conference		**37,939,664**	30,096,965
Office supplies and reproduction		**34,290,083**	26,549,021
Finance costs	10, 16.2	**21,534,855**	17,766,174
Depreciation and amortization	8	**17,517,621**	15,569,237
Light and water		**15,691,666**	13,102,620
Taxes and licenses	21.1*(f)*	**11,659,229**	8,199,774
Postage and telephone		**9,502,338**	3,463,270
Miscellaneous		**10,588,656**	9,104,954
		P1,528,240,749	P1,153,125,521

15. GENERAL AND ADMINISTRATIVE EXPENSES

The details of general and administrative expenses are shown below.

	Notes	2015	2014
Taxes and licenses	21.1*(f)*	**P 253,807,924**	P 103,048,991
Employee benefits	16.1	**115,729,702**	106,053,936
Travel and transportation		**20,956,645**	32,443,495
Grants and donations		**14,028,625**	12,640,401
Depreciation and amortization	8	**9,055,086**	4,032,196
Postage and telephone		**6,902,283**	6,519,876
Staff development and conference		**4,258,393**	5,483,428
Professional fees		**3,725,535**	6,951,767
Repairs and maintenance		**1,850,852**	16,422,602
Office supplies and reproduction		**1,424,255**	1,184,969
Office rental	19	**702,000**	6,538,968
Miscellaneous		**6,890,687**	3,425,864
		P 439,331,987	P 304,746,493

16. EMPLOYEE BENEFITS

16.1 Salaries and Employee Benefits Expense

Expenses recognized for salaries and other employee benefits are presented below.

	Note	2015	2014
Salaries and wages		P 824,027,611	P 650,351,894
SSS, HDMF, Philhealth contributions		59,520,320	48,478,934
Post-employment benefits	16.2	43,445,100	31,574,282
Staff benevolent fund		17,048,150	25,963,380
		P 944,041,181	P 756,368,490

The amounts of employee benefits are allocated and reported in the statements of comprehensive income as follows:

	Notes	2015	2014
Project costs	14	P 828,311,479	P 650,314,554
General and administrative	15	115,729,702	106,053,936
	13	P 944,041,181	P 756,368,490

16.2 Post-employment Defined Benefit Plan

(a) Characteristics of the Defined Benefit Plan

The Foundation maintains an unfunded and noncontributory post-employment defined benefit plan covering all regular full-time employees. It accrues the estimated cost of retirement benefits required by the provisions of Republic Act (RA) No. 7641, *The Retirement Pay Law*. Under RA No. 7641, the Foundation is required to provide minimum retirement benefits to qualified employees but the Foundation is not required to make funding of such benefit.

(b) Explanation of Amounts Presented in the Financial Statements

Actuarial valuations are made annually to update the post-employment benefit costs and obligation. All amounts presented in the succeeding pages are based on the actuarial valuation report obtained from an independent actuary in 2015 and 2014.

Post-employment defined benefit obligation recognized in the statements of financial position amounts to P207.3 million and P120.3 million as of December 31, 2015 and 2014, respectively.

The movements in the present value of the post-employment defined benefit obligation recognized in the statements of financial position are as follows:

	2015	2014
Balance at beginning of year	**P 120,232,500**	P 85,318,000
Current service cost	**43,445,100**	31,574,282
Interest expense	**5,398,450**	4,538,918
Remeasurements - actuarial losses (gains) arising from:		
Experience adjustments	**46,389,199**	(9,978,009)
Changes in financial assumptions	**(7,628,099)**	9,219,009
Benefits paid	**(564,050)**	(439,700)
Balance at end of year	**P 207,273,100**	P 120,232,500

The components of amounts recognized in profit or loss and in other comprehensive income in respect of the post-employment defined benefit plan are as follows:

	2015	2014
Reported in profit or loss:		
Current service cost	**P 43,445,100**	P 31,574,282
Interest expense	**5,398,450**	4,538,918
	P 48,843,550	P 36,113,200
Reported in other comprehensive income:		
Actuarial losses (gains) arising from changes in:		
Experience adjustments	**P 46,389,199**	(P 9,978,009)
Financial assumptions	**(7,628,099)**	9,219,009
	P 38,761,100	(P 759,000)

Current service cost is allocated and presented in the statements of comprehensive income under the following accounts:

	2015	2014
Project costs	**P 30,411,570**	P 18,944,569
General and administrative	**13,033,530**	12,629,713
	P 43,445,100	P 31,574,282

The interest expense on the obligation is included as part of Finance Costs under the Project Costs account in the statements of comprehensive income (see Note 14).

Amounts recognized in other comprehensive income or loss were included within item that will not be reclassified subsequently to profit or loss.

In determining the amounts of the post-employment defined benefit obligation, the following significant actuarial assumptions were used:

	2015	2014
Discount rates	**4.9%**	4.5%
Expected rate of salary increases	**12.0%**	12.0%

Assumptions regarding future mortality are based on published statistics and mortality tables. The average remaining working lives of an individual retiring at the age of 60 is 34 for males and 34.8 for females. These assumptions were developed by management with the assistance of an independent actuary. Discount factors are determined close to the end of each reporting period by reference to the interest rates of a zero coupon government bonds with terms to maturity approximating to the terms of the post-employment obligation. Other assumptions are based on current actuarial benchmarks and management's historical experience.

(c) Other information

The information on the sensitivity analysis for certain significant actuarial assumptions and the timing and uncertainty of future cash flows related to the retirement plan are described below.

(i) Sensitivity Analysis

The following table summarizes the effects of changes in the significant actuarial assumptions used in the determination of the post-employment defined benefit obligation as of December 31, 2015 and 2014:

	Impact on Post-employment Defined Benefit Obligation		
	Change in Assumption	Increase in Assumption	Decrease in Assumption
December 31, 2015			
Discount rate	**+8.5%/- 9.5%**	**(P 17,688,618)**	**P 19,713,593**
Salary growth rate	**+7.8%/-7.3%**	**16,230,507**	**(15,047,346)**
December 31, 2014			
Discount rate	+9.2%/- 10.3%	(P 11,002,742)	P 12,331,867
Salary growth rate	+8.5%/-7.8%	10,188,615	(9,401,683)

The above sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. This analysis may not be representative of the actual change in the post-employment defined benefit obligation as it is unlikely that the change in assumptions would occur in isolation of one another as some of the assumptions may be correlated. Furthermore, in presenting the above sensitivity analysis, the present value of the post-employment defined benefit obligation at the end of the reporting period has been calculated using the projected unit credit method, which is the same as that applied in calculating the post-employment defined benefit obligation recognized in the statement of financial position.

The methods and types of assumptions used in preparing the sensitivity analysis did not change compared to the previous years.

(ii) Funding Arrangements and Expected Contribution

At the end of the reporting period, the Foundation has no formal plan of funding its post-employment defined benefit obligation yet. While there are no minimum funding requirement in the country, the size of the underfunding may pose a cash flow risk in about 5 years' time when a significant number of employees is expected to retire.

In one to ten years, the Foundation's undiscounted expected benefit payments from the plan amounts to P3.8 million and P3.2 million at the end of 2015 and 2014, respectively.

The weighted average duration of the post-employment defined benefit obligation at the end of the reporting period is eight years.

17. RELATED PARTY TRANSACTIONS

The Foundation's related party includes its key management personnel. The compensation given to key management personnel in the form of short-term benefits amounted to P59.4 million and P44.9 million in 2015 and 2014, respectively; while post-employment benefits amounted to P4.4 million and P2.4 million in 2015 and 2014, respectively and is presented as part of Employee Benefits account under Operating Expenses in the statements of comprehensive income.

18. INCOME TAX AND INCOME TAX EXEMPTION

The Foundation is a nonstock, nonprofit corporation and the primary purpose of which is one of those enumerated in Section 30 of the Tax Reform Act of 1997 (RA No. 8424). Moreover, no part of the excess of revenues over expenses of the Foundation inures to the benefit of any of its members. The trustees do not receive any compensation. In case of dissolution, the assets of the Foundation shall be transferred to a similar institution or to the government. Accordingly, management continues to avail the Foundation's exemption from income taxes.

On November 3, 2015, Republic Act 10693 otherwise known as the "Microfinance NGOs Act" (the Act) was signed into law. The Act provides that duly registered and microfinance NGOs shall be eligible to the preferential tax treatment of two percent (2%) based on its gross receipts from microfinance operations in lieu of all national taxes. Moreover, income derived by the Foundation from its properties, real or personal, or from any of its activities not covered by the exemption or activities conducted for profit regardless of the disposition made of such income, is subject to tax [see Note 21.1(f)].

19. COMMITMENTS AND CONTINGENCIES

19.1 Operating Lease Commitments – Foundation as Lessee

The Foundation has operating lease agreements covering various office spaces occupied by the Foundation and its branches for a period of six months to two years. The lease agreements require the Foundation to pay rental deposits. Outstanding rental deposits as of December 31, 2015 and 2014 amounted to P15.4 million and P12.0 million, respectively, and are shown as Rental Deposits in the statements of financial position.

The future minimum lease payments under these non-cancellable operating leases are as follows as of December 31:

	2015	2014
Within one year	**P 43,995,180**	P 40,966,908
After one year but not more than five years	**-**	544,600
	P 43,995,180	P 41,511,508

Rent expense recognized related to these operating leases amounted to P78.2 million in 2015 and P67.7 million in 2014, which are allocated to both Project Costs and General and Administrative Expenses under Operating Expenses in statements of comprehensive income (see Notes 13, 14 and 15).

19.2 Others

There are other commitments and contingencies that arise in the normal course of the Foundation's operations which are not reflected in the financial statements. As of December 31, 2015, management is of the opinion that losses, if any, that may arise from these commitments and contingencies will not have a material effect on the Foundation's financial statements.

20. CAPITAL MANAGEMENT OBJECTIVES, POLICIES AND PROCEDURES

The Foundation's capital management objectives are to generate funds to expand its microfinance operations by pricing services commensurately with the level of risk, to facilitate the convergence and provision of other social services to the poor, and to ensure the Foundation's ability to continue as a going concern.

The Foundation monitors capital on the basis of the carrying amount of the fund balance as presented in the statements of financial position.

The Foundation sets the amount of capital in proportion to its overall financing structure, i.e., fund balance and loans from third parties. The Foundation manages the capital structure and makes adjustments to it in the light of changes in economic conditions and the risk characteristics of the underlying assets.

	2015	2014
Total loans from third parties	**P 579,000,000**	P 364,600,000
Total fund balance	**900,111,833**	615,622,665
Debt-to-fund ratio	**0.64:1.00**	0.59:1.00

The Foundation has satisfactorily complied with its covenant obligations related to its interest-bearing loans as of the end of each reporting period.

21. SUPPLEMENTARY INFORMATION REQUIRED BY THE BUREAU OF INTERNAL REVENUE

Presented below is the supplementary information which is required by the Bureau of Internal Revenue (BIR) under its existing revenue regulations to be disclosed as part of the notes to financial statements. This supplementary information is not a required disclosure under PFRS. All information are presented in their absolute amounts.

21.1 Requirements under Revenue Regulations (RR) 15-2010

The information on taxes, duties and license fees paid or accrued during the taxable year required under RR 15-2010 are as follows:

(a) Output Value-added Tax (VAT)

The Foundation has not incurred any output tax liability for the year ended December 31, 2015 as it has no revenue transactions subject to VAT (see Note 18).

(b) Input VAT

The Foundation did not recognize any input VAT. It records all input VAT on purchases of goods and services as expense since it would not be recovered from setting-off with any output tax liability in the future.

(c) Documentary Stamp Tax

The Foundation paid documentary stamp tax (DST) in 2015 amounting to P3,802,602, which is related to the several loans originated during the year [see Note 21.1(f)].

(d) Taxes on Importation

The Foundation did not incur or pay any customs' duties and tariff fees as it did not have any importation for the year ended December 31, 2015.

(e) Excise Tax

The Foundation did not have any transactions in 2015, which are subject to excise tax.

(f) Taxes and Licenses

The details of Taxes and Licenses account in 2015 are shown below.

	Notes	
BIR assessment		P 140,335,506

ASA Philippines Foundation, Inc.
(A Nonstock, Nonprofit Organization)
15th Floor Prestige Tower, F. Ortigas Jr. Street
Ortigas Center, Pasig City

We have audited, in accordance with Philippine Standards on Auditing, the financial statements of ASA Philippines Foundation, Inc. for the year ended December 31, 2015, on which we have rendered our report dated March 2, 2016. Our audit was made for the purpose of forming an opinion on the basic financial statements taken as a whole. The Schedule of Philippine Financial Reporting Standards and Interpretations Adopted by the Securities and Exchange Commission and the Financial Reporting Standards Council as of December 31, 2015, is presented for purposes of additional analysis in compliance with the requirement under the Securities Regulation Code Rule 68, and is not a required part of the basic financial statements in accordance with Philippine Financial Reporting Standards. Such supplementary information is the responsibility of management. The supplementary information has been subjected to the auditing procedures applied in the audit of the basic financial statements and, in our opinion, is fairly stated in all material respects in relation to the basic financial statements taken as a whole.
